

Intro (Solo)

Intro G → C → G

# Between The General & The Grave (capo 2<sup>nd</sup> fret)

G C G  
We settled down for evening. Sleepin on our feet

C D  
Packed as close as if in moats. We shook b4 our leaving (as if in hope?)

C D C D  
No one slept a moment, they smoked what they had saved

G C G  
Counting down the hours. 'Tween th General & th grave

intro riff G-C-G

at 4am the cannon roared awakening the Devil

C D  
at 6am dawn had come the killing fields now level

C D C D  
I lit a final cigarette our line stretched like a wave

G C G  
listening for the whistle 'tween the General & the grave

intro riff

one hand on the ladder the other on my gun

first we climb n then we charge I prayed I would not run

fast & forward quickly as a soldier does behave

waiting for my moment 'tween the General & the grave

in life I am courageous to take a patriot's stand - have a min verse!  
in death I am heroic and cradled in God's hand  
but this dawn finds me lonely as if sealed within a cave  
surrounded by my comrades 'twixt the General & the grave

intro riff

over the top & out to run the razor wire is cut  
I hear the click & then the crack a warmth within my gut  
blown into a shell hole where I pray that I was brave

G C D G  
so far from my homeland 'tween my General & my  
grave (repeat last line, retard end...)

intro riff

the Mayor speaks, a piper squeaks, the flag held in the wind  
a bouquet lain for the newly slain, the Fallen without sin  
I'd cry if I could manage but no tears did I save

we I wept them all the day I lay 'tween my General & my grave (2x)
